To Whom It May Concern:

Rainbow Construction Co. performed the general contractor's work on my project named " West Annapolis Fire Station Addition & Renovation". The addition involved new work including kitchen, dining area, lockers, bathrooms, sleeping area etc. The project also included plumbing, HVAC, electric and fire protection system. The total contract was for about \$1,000,000. There were some owner requested change orders. Larry Rodgers of Rainbow Construction was very cooperative, easy to work with, reliable, considerate. The work performed is praiseworthy and professional. I won't mind hiring them again if given a chance.

Should you have any question, please free to call me at (410) 222-7938.

Very truly,

Rajan Nigam  
Project Manager
