To Whom It May Concern:

Rainbow Construction Corp acted as the General Contractor on the West Annapolis Fire Station Addition and Renovation, which I oversaw. The project scope included a wide variety of trades to include HVAC, electric, and fire protection, as well as an addition that included a new kitchen, dining area, lockers, bathrooms, and bunk area. The total contract on this project was slightly over a million dollars, which included some Owner requested change orders. I found Rainbow Construction's work on this project to be exemplary and professional and open-minded as it pertains to change order negotiation. I look forward to a chance to work with them again.

Should you have any questions, feel free to contact me at (410)265-9500.

Regards,

Lori Leahy
